DGMC operates solely on student fees, emphasizing financial sustainability and accountability. This model ensures that resources are directly invested in enhancing the quality of education and student experiences. By relying exclusively on tuition, the college maintains a transparent financial structure, allowing students and parents to understand where their fees are allocated.

This approach enables DGMC to provide state-of-the-art facilities, experienced faculty, and innovative programs that cater to the evolving demands of the industry. Additionally, it fosters a sense of ownership among students, encouraging them to engage actively in their learning environment.

While this model may present challenges, it ultimately drives the institution to continuously improve and adapt, ensuring that students receive a high-quality education that prepares them for future success.
