Report

On 26th July 2022 to commemorate Kargil Vijay Diwas and observe the milestone of 23 years of India's victory in the Kargil War, the Rotaract club of Deviprasad Goenka Management College of Media Studies in association with the Film Society and Advertising and Branding club organized an event to pay tribute to our soldiers. Our Principal Dr. Amee Vora and RSET's CEO Col. Capt. Anant Yagnik , who was the captain (then) in the Indian Navy, graced the occasion. Films documenting the on-duty soldiers were screened at the event for the audience.

This was followed by students writing individual letters to our brave Indian soldiers. Along with the heartfelt letters, we decided to add a little extra touch of love for our Jawans by sending them beautiful rakhis which were made for them by specially-abled children.

The event touched the hearts of everyone involved, bringing the Rotaract club of DGMC closer to their goal of spreading love and kindness in every way possible.

Rakhi with Heroes

Report

Rakhi with Heroes was an event that is a definition of what we can call as 'sweet and simple'.

An event filled with love and laughter, organized by the Community Service avenue. The students of the Rotaract Club of DGMC went to Malad Police Station on 11th August 2022 at 11:30am. They shared the joyous celebration of Raksha Bandhan with hard-working police officers, to express gratitude for the effort, to protect and preserve the safety of all citizens. Students of RCDGMC tied rakhis to the officers in the police station. It truly was a heartwarming event but before leaving they did not forget to flash a smile for the camera.

Report

On the occasion of International Coastal Cleanup Day 2022, under the initiative of Government of India's Clean Coastal Safe Sea, RCDGMC commemorated the same on 18th of September 2022

The team arrived at Juhu beach at 8 o'clock with full zeal and vigor for the cleanup drive.

People pitched in to collect beach trash to make the beach a more pleasant and safer place for everyone.

Every piece of litter that was removed from the beach and kept out of the ocean reduces the amount of trash harming aquatic life.

At the end, 9 garbage bags were filled till the brim and there was a visible difference of cleanliness at the beach. This beach clean-up was a crucial mitigation technique that promoted awareness of the issue and motivated people to take part in finding solutions.

The main feedback of this beach clean-up drive was to increase public awareness of marine pollution and to help the oceans by removing trash and plastic waste.

Report

On the occasion of Gandhi Jayanti, The Rotaract Club of Deviprasad Goenka Management College of Media Studies conducted a 'SelfAwareness Drive'.

Rotaractors decided to launch a peace march to spread the moral ideas and duties mentioned in our constitution. The walk started at Marine Drive from 8:30 am onwards. The march was done by holding handmade banners and posters. The students walked all through the marine drive to spread awareness.

In a country with a vote-based system of Government, one should adhere to our duties while appreciating our privileges and rights. Fundamental obligations for every citizen are stated under Article 51A in our Constitution. They are forgotten and lost due to busy life. Thus, the march was to remind people of the fundamental duties and their significance of the same.

Aryan Menghani, a member of the club played a few songs from the 80's and 90's era on this violin for entertainment and refreshment, while others spent time by talking and listening to people who had gathered at the main hall.

The residents were bursting with enthusiasm as they hummed along to the classic songs. Hearing their happy grins, toothless smiles, and quiet giggles brought us indescribable happiness. The visit's primary goal had been fulfilled.

The locals were delighted to have us visit them, and the staff was friendly. The joy on their faces, despite all difficulties they might have been facing, inspired all of us.

Report

Part 1

The Rotaract Club of Deviprasad Goenka Management College of Media Studies organized one of its flagship projects 'Proud Girl', which aimed at spreading education about menstrual hygiene among women.

The first part of the event was a Workshop which was held on 10th November 2022 in Madhoprasad Saraf Seminar Hall which commenced at 3 pm. The workshop started by welcoming our special guest Dr. Chaitali Mahajan Trivedi, who is a gynecologist and cosmetic surgeon. She is also a Guinness World Record Holder. The President then took over the mic to express his gratitude to the guest.

The event's first half was a skit performed by club members where they portrayed the problems a girl faces in India when she gets her menstruation for the first time and education about the importance of usage of sanitary napkins over traditional methods.

This was then followed by Dr. Chaitali's speech which educated us about the problems a woman faces in terms of menstrual hygiene, how a menstrual cycle works, and a lot more detailed information about the reasons and the process of menstruation. She also busted some myths that people still believe and follow related to menstruation and guided about how it can be dealt with some tips and advice such as eating habits and exercises.

She highlighted the point that dumping pads in an inappropriate manner affects our environment and guided us on the correct way to dispose of them.

Through this, she ended her speech by motivating us, especially the boys to make this 'taboo topic', a normal and natural thing to discuss.

Rtr. Krisha Yadav, the Secretary of the club then ended the workshop by giving a vote of thanks.

Part 2

Second part of the 'Proud Girl' project was conducted on 12th November 2022. It was a full day event which consisted of visiting a village named Umela Fatak, in Nagaon (W) for spreading awareness about menstruation, hygiene and the importance of sanitary pads.

The bus reached the destination at 10:30 am. The first thing was cleaning the area where the Rotaractors were going to make the setup for people to sit and teach people how to make Sanitary pads.

After the clean up, a rally commenced with the club banner and slogans were said aloud to inform people in the village about the session.

After the villagers gathered and settled, the President of the club Rtr. Sanman Hutgikar made them aware of the club and the purpose of the visit. Our faculty Prof. Selvi, and Mrs.Sunita w felicitated the head of the village Mr. Nilke and the President of the village Mr. Gangadhar for helping and allowing us to do this project in the village.

Our members presented a skit showing a girl who gets her periods for the first time and the problems she faces because of cultural stigma attached to it.

This was then followed by Rtr. Isha Shrivastav, Director of Community Service avenue who gave the villagers a demo on how to make a sanitary pad easily by using raw materials which are easily accessible to them.

All the members were divided into groups to help the women in the village to teach them the process of making sanitary napkins, which were also distributed to them later.

Rtr. Isha Shrivastav also interviewed some women to know about their problems and the availability of pads in the village.

They appreciated the project and the initiative taken by RCDGMC. After taking group photographs and capturing memories. The President of the club Rtr. Sanman Hutgikar

WHAT IS THALASSAEMIA?

- Thalassaemia or Cooley's/Mediterranean Anaemia is an ABSOLUTELY PREVENTABLE "GENETIC DISORDER" of Red Blood Corpuscles (R.B.C.).

In India, it is emerging as a very serious health problem affecting, according to W.H.O. more than 7% - 8% of Indians and increasing by at least 4% - 5% annually.

- PUBLIC AWARENESS IS AT BEST NEGLIGIBLE

- NORMALLY DOCTORS CONFUSE IT WITH IRON DEFICIENCY ANAEMIA

- THEORETICALLY some of the high risk communities are Punjabis, Sindhis, Sikhs, Bengalis, Kacchis, Lohanas, Kumbhis, Memons, Khojas, Bhanushalis etc. At present no community is safe.

TWO BASIC CLINICAL FORMS OF THALASSAEMIA ARE :

- (1) MINOR (DISORDER)/TRAIT CARRIER
- (2) MAJOR (DISEASE)

- Person having THALASSAEMIA MINOR (TRAIT) generally is healthy, with mild anaemia. It can be discovered only by specific blood/genetic tests carried out in hematology labs or referral centres.

- INDIA MAY HAVE MORE THAN 70 MILLION CARRIERS OF THIS TRAIT

- It is ONLY when BOTH the MOTHER and FATHER are MINOR/TRAIT CARRIERS (SEE FIGS.) that a "THALASSAEMIA MAJOR" child is born.

Mother with Thalassaemia Trait

Thalassaemia Major Trait

25% chances every pregnancy

50% chances every pregnancy

25% chances every pregnancy

THALASSAEMIA MAJOR patient requires REGULAR & LIFELONG blood transfusion for survival. But every blood transfusion carries with it a HORROR of HIV (HIV+ve blood transfused can turn into HIV +ve in six months in what is known as a WINDOW PERIOD). Due to the limitation in bestest available test kits.

Due to multiple blood transfusion, patients continuously need to remove (Chelate) Ferritin/IRON.

Currently there are TWO drugs available for Chelation :

- 1) Injection 'DEFERAL' is infused by needle under the skin (subcutaneously) with the help of a pump/syringe driver DAILY for 10-12 HRS. This therapy is PAINFUL & very expensive.

- 2) Capsules 'KELFER' is given orally, under strict medical supervision. But, some patients get serious adverse reactions and are unable to tolerate this drug.

Apart from the above Thalassaemia major patients, over a period of time, suffer from diabetes, splenic, cardiac, endocrine, hepatic and other complications.

- 1) PREVENTION IS THE BEST CURE
- 2) AWARENESS IS THE BEST WAY TO PREVENT BIRTH OF A THALASSAEMIC
- 3) IN IGNORANCE THIS DISORDER/ DISEASE FLOURISHES

Should be availed if BOTH the parents are Thalassaemia minor (trait carriers), within 10-19 weeks of pregnancy, at Hemeotologists specialising in these tests.

जिंदगीभर का बंधन

आम जानकारी के लिए

मुंबई थैलेसीमिया सोसायटी

की तरफ से प्रकाशित

Regd. Under Soc. & P. T. Act, Mumbai/341/1998 Gbbs P. T. Regd.No. F. 20282,
Exempted Under Income Tax Act, 1961, Sec. 80-g.

थैलेसीमिया क्या है ?

◆ थैलेसीमिया यानी कूलिज़/ मोडिटेरेनियन एनीमिया लाल रक्तकणिका में बसे हिमोग्लोबिन का अनुवांशिक गुणसूत्र दोष है ।

◆ हम इस अनुवांशिक गुणसूत्र - दोष को नियंत्रित कर सकते हैं। हमारे देश में ये बहुत गंभीर स्वास्थ्य समस्या है। क्योंकि विश्व स्वास्थ्य समिति (W.H.O.) के अनुसार भारत अनुसार भारत में त प्रतिशत से छ प्रतिशत लोग इस गुणसूत्र दोष के साथ पैदा होते हैं और उनकी संख्या हर साल ४ प्रतिशत से ५ प्रतिशत बढ़ती जा रही है।

◆ हमारे देश की आम जनता को इस बारे में ज्यादा जानकारी नहीं है। ज्यादातर डॉक्टर इस बीमारी को खून की कमी के कारण होनेवाला एनीमिया (Iron Deficiency Anaemia) समझते हैं।

◆ सामान्य रूप से थैलेसीमिया ज्यादातर पंजाबी, सिंधी, सिख, बंगाली, कच्छी, लोहाना, कुणबी, मेमन, खोना, भानुशाली आदि जाति के लोगों में देखा गया है, मगर अब दूसरी जातियों के लोगों में भी देखा गया है।

थैलेसीमिया के मुख्य दो प्रकार हैं

9. माइनर (ट्रेंट) थैलेसीमिया - थैलेसीमिया वाहक .
२. मेजर थैलेसीमिया - थैलेसीमिया मेजर से पीड़ित

◆ जो इसान थैलेसीमिया माइनर (ट्रेंट) होता है, वह सामान्यतः तंदुरुस्त होता है। उसके खून में सिर्फ लोहत्त्व (हिमोग्लोबिन) की मात्रा थोड़ी कम होती है। उसे एक विशिष्ट प्रकार की खून की जांच करके पहचाना जा सकता है। इस तरह की खून की जांच विशिष्ट प्रयोगशाला (लेबोरेटरी) / रक्त चिकित्सक (हेमेटोलॉजिस्ट) के पास या तो थैलेसीमिया सेन्टर में करा सकते हैं।

◆ हमारे देश में त करोड़ से भी ज्यादा लोग थैलेसीमिया माइनर हैं ऐसे माना जाता है। जब माता और पिता दोनों थैलेसीमिया माइनर (ट्रेंट/कैरियर/वाहक) हो तब ही थैलेसीमिया मेजर बच्चा पैदा होने की संभावना होती है। (चित्र देखिए)

◆ बालक को जन्मे के लिए नियतित रूप से विट्डी भ्रम खून बढ़ाना आवश्यक है मगर इसी जीवनजोर (खून की बोटल) के साथ रहता है एचआईवी का भयानक खौफ।

◆ प्रमाणित परीक्षण उपकरण (टेस्ट किट) की कुछ मर्यादा के कारण HIV Negative खून छह महीने में HIV Positive लक्षण दिखा सकता है। इस समय अंतःशाल को विडो पॉसिबल कहते हैं।

◆ इसके अलावा थैलेसीमिया मेजर मरीजों को कुछ अरसे बाद मधुमेह (Diabetes), प्लीहा (Spleen), हृदय (Heart), अन्तःस्त्रावी ग्रंथियां (Endocrine glands), यकृत (Liver) संबंधी बीमारी और दूसरी कई जटिल समस्याओं से लड़ना पड़ता है।

◆ बार बार खून बढ़ाने से बढ़ते रहते बिन जरूरी लोहत्त्व को बाहर निकालने के लिए दवाई लेना भी अत्यंत आवश्यक है। फिलहाल बाजार में इस लोहत्त्व को बाहर निकालने के लिए दो प्रकार की दवाईयां उपलब्ध है।

1. थैलेसीमिया के प्रति हमारा अज्ञान इस बीमारी को फलने-फूलने में मदद करता है।
2. हमें अपर पूरी जानकारी होगी तो थैलेसीमिया मेजर बालक को पैदा होने से रोक सकते हैं।
3. रोग का निवारण ही उसका श्रेष्ठ इलाज इलाज है। हमें थैलेसीमिया को फैलने से रोकने के लिए, बाढ़ से पहले ही बांध बांधने की सख्त जरूरत है। धन

Greetings of the day!

On behalf of Shri Ashok M Saraf – President RSET, members of the Managing Committee, Staff and on my personal behalf, I take this opportunity to thank you for gracing our event “CYCLOTHON - Pedal for a Cause, Pedal for Thalassaemia” on 19th of February, 2023. This event was organised as a precursor to create awareness for the cause and also as a precursor of our Annual Festival Media ICE age and International Film Festival Cine Voyage organised by our student organising team scheduled for 22nd to 24th Feb 2023.

My team and I truly appreciate your association with us to spread awareness of the importance of Thalassaemia - an inherited blood disorder. It indeed was a great experience and are hopeful that participants will take on board the importance of testing before marriage.

I look forward to further collaborating and establishing a good Academia Industry relation with you in future.

Warm Regards,
